

Installing the new Citrix Online Plug-in:

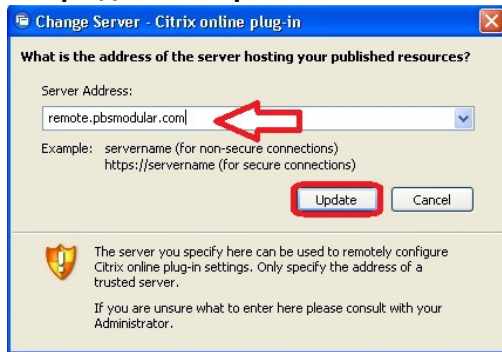

1. Begin by opening your web browser, and navigating to the following site:
<http://remote.pbsmodular.com>
2. When the page loads, click on the link that is labeled “Clicking here”.

3. At the next two prompts, select “Run”.

4. You will be prompted to enter your server address. Please enter **“https://remote.pbsmodular.com”** and press **“Update”**

5. Click **“Ok”**. Notice a new icon appears in your taskbar.

6. You will also be prompted to enter your logon credentials. Enter your network username, password, and domain, then press **“Ok”**. You may also choose to save your password if you do not want to login manually.

7. When your Citrix icon turns blue, you are logged in. You will launch all of your applications from this icon. Left-click the icon and then select "Applications". All of your applications will be listed here. Left-click to launch an application.
